

Avjobs Student Aviation Program

Aviation Industry Graduates Get to Work

Avjobs' expertise and leadership gets students to work quickly in the aviation industry. Too often, entry level students find it difficult and challenging to find industry employment after graduation. It is our priority to provide the highest level of employment assistance and help you secure employment in the industry where you have studied and trained.

Avjobs Student Aviation Program makes a difference and eases your transition into the work force. We provide the course of action necessary to move you easily and quickly into a position in the industry. The program is designed exclusively to help students lock in aviation employment immediately upon graduation.

We Make Dreams Reality

- Securing suitable employment in the aviation industry is the next logical step in your educational process
- Don't be one of the many graduates that are forced to look outside your field of study for your first job
- Stay focused on your future and see your efforts pay off
- Avjobs prepares and walks you through every step of the process to ensure your success and a smooth transition
- Find full time, part time and internship opportunities
- Jobs are available in all sectors of commercial, corporate, and general aviation including airlines, airports, aerospace, manufacturers, government agencies, suppliers, airport based businesses, federal contractors, and more
- Leading companies are eager to find and hire quality, active applicants like you
- Avjobs covers all sectors of the industry including; aircraft mechanics, avionics, engineers, airport management, pilots, reservation agents, baggage handlers, customer service, line maintenance, ramp agents, stores, aircraft cleaners, security, flight attendants, and many other diverse aviation careers

"Too often, we see students take jobs immediately after graduation outside the aviation industry. It's a shame to see their educational efforts and career dreams get crushed at such an early stage in their career," says Mark Spain, Director of Student Development. "The Student Aviation Program addresses the need for young people to acquire a position in the industry by giving students the resources they need to succeed," he continues. "All students of aviation related programs are eligible to receive highly discounted employment assistance through the program."

Professional Assistance on a Student Budget

Under Avjobs Student Aviation Program, students with an emphasis in aviation are eligible for the greatly reduced pricing. The savings makes it easy for you to participate and land a job fast.
